## Structure Guide BerryAlloc High Pressure laminate

 <p><b>Wood Structure</b></p>	<p>A deep wood structure highlights the natural wood structures in the floor, giving a sophisticated wood look.</p>	<p><i>Available in:</i> Original &amp; Grand Avenue</p>
 <p><b>Stone Structure</b></p>	<p>Stone designs that are perfectly synchronized with a natural stone structure, for an authentic looking stone floor.</p>	<p><i>Available in:</i> Grand Avenue</p>
 <p><b>Rustic Stone</b></p>	<p>A Rustic Stone design is a stone structure with an extra natural effect.</p>	<p><i>Available in:</i> Grand Avenue</p>
 <p><b>Satin</b></p>	<p>The Satin finish adds a gloss to the wood decor.</p>	<p><i>Available in:</i> Original</p>
 <p><b>Brushed</b></p>	<p>A sanded matte finish that embraces the wood.</p>	<p><i>Available in:</i> Original &amp; Grand Avenue</p>
 <p><b>Oiled Touch</b></p>	<p>The Oiled Touch is often combined with Wood Structure, which results in a very matte oiled parquet look.</p>	<p><i>Available in:</i> Original &amp; Grand Avenue</p>

## BerryAlloc High Pressure LAMINATE

### 8 REASONS WHY TO CHOOSE HIGH PRESSURE LAMINATE

- 1. Maximum strength**  
Unequaled in their solid strength, BerryAlloc laminate floors tolerate high traffic, impacts of various kinds and heavy loads.
- 2. Strong aluminium lock**  
Our floors can be installed without expansion profiles over an area of 225 m<sup>2</sup> or across a maximum length of 15 metres.
- 3. Noise reduction**  
The Silent System, an acoustic underlay incorporated into our BerryAlloc laminates, cuts noise by more than 19 decibels.
- 4. Easy to Install**  
This efficient click-lock system is easy to install and secure.
- 5. Resistance - Class 34 / AC6**  
The durable surface layer is pressed separately, and glued onto the coreboard. The plank is significantly stronger than traditional laminate.
- 6. Aquaresist**  
Aquaresist technology keeps moisture absorption.
- 7. Anti-static performance**  
Ensures a pleasant, interference-free environment for all electrical and electronic equipment.
- 8. 100% sustainable**  
Raw materials, manufacturing and production processes chose to respect the environment.

## COLOR GUIDE

BerryAlloc

# HIGH TECH LOC

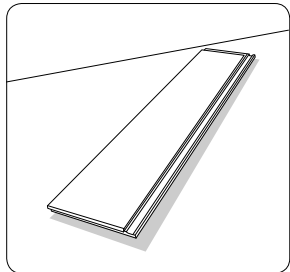

AVAILABLE ON THE ORIGINAL COLLECTION

**Our aluminium locks are unique.**

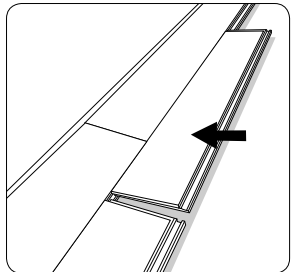

The High Tech Loc is made from aluminium, which gives the floor an extra strong lock strength. It provides a sealed floor surface that can cope with heavy traffic.

The High Tech Loc can be clicked and unclicked again and is easy to install by using the Berry Alloc tapping block to close the lock.

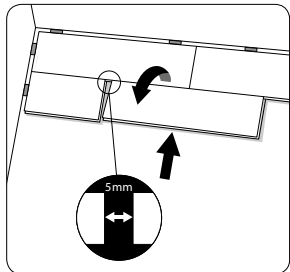

(see pictures below).

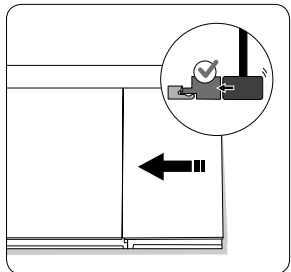

Original plank with **High Tech Loc**

Place the longside of the plank at a **20° +/- angle** in the aluminum lock of the previous row

Position the board **5mm** from the previous board and fold down

Slide the plank left using a BerryAlloc **tapping block** to close the lock

BerryAlloc

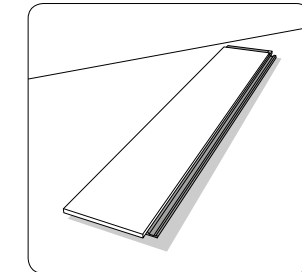

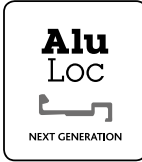

# ALULOC

AVAILABLE ON THE GRAND AVENUE COLLECTION

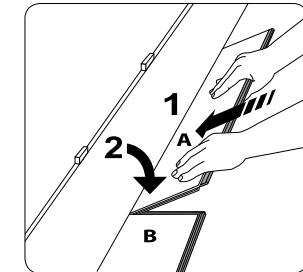

**Strong, revolutionary lock.**

The AluLoc is the 'ultra' strong lock that can tolerate loads of up to 1200 kg per linear meter. By using the Fold-down-technology, it guarantees an easy installation without the need of extra special tools.

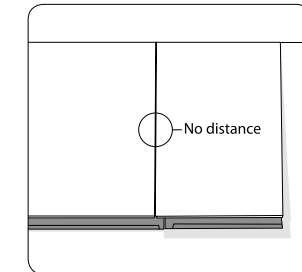

The AluLoc technique is developed especially for the ease of installing long and heavy planks, as our Grand Avenue Collection.

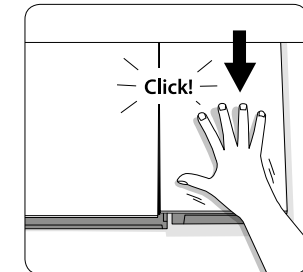

Grand Avenue plank with **AluLoc**

Place the longside of the plank at a **20° +/- angle** in the aluminum lock of the previous row

Position the board directly above the previous short side lock

Fold down

BerryAlloc

# SILENT SYSTEM

## PRE-ATTACHED UNDERLAY

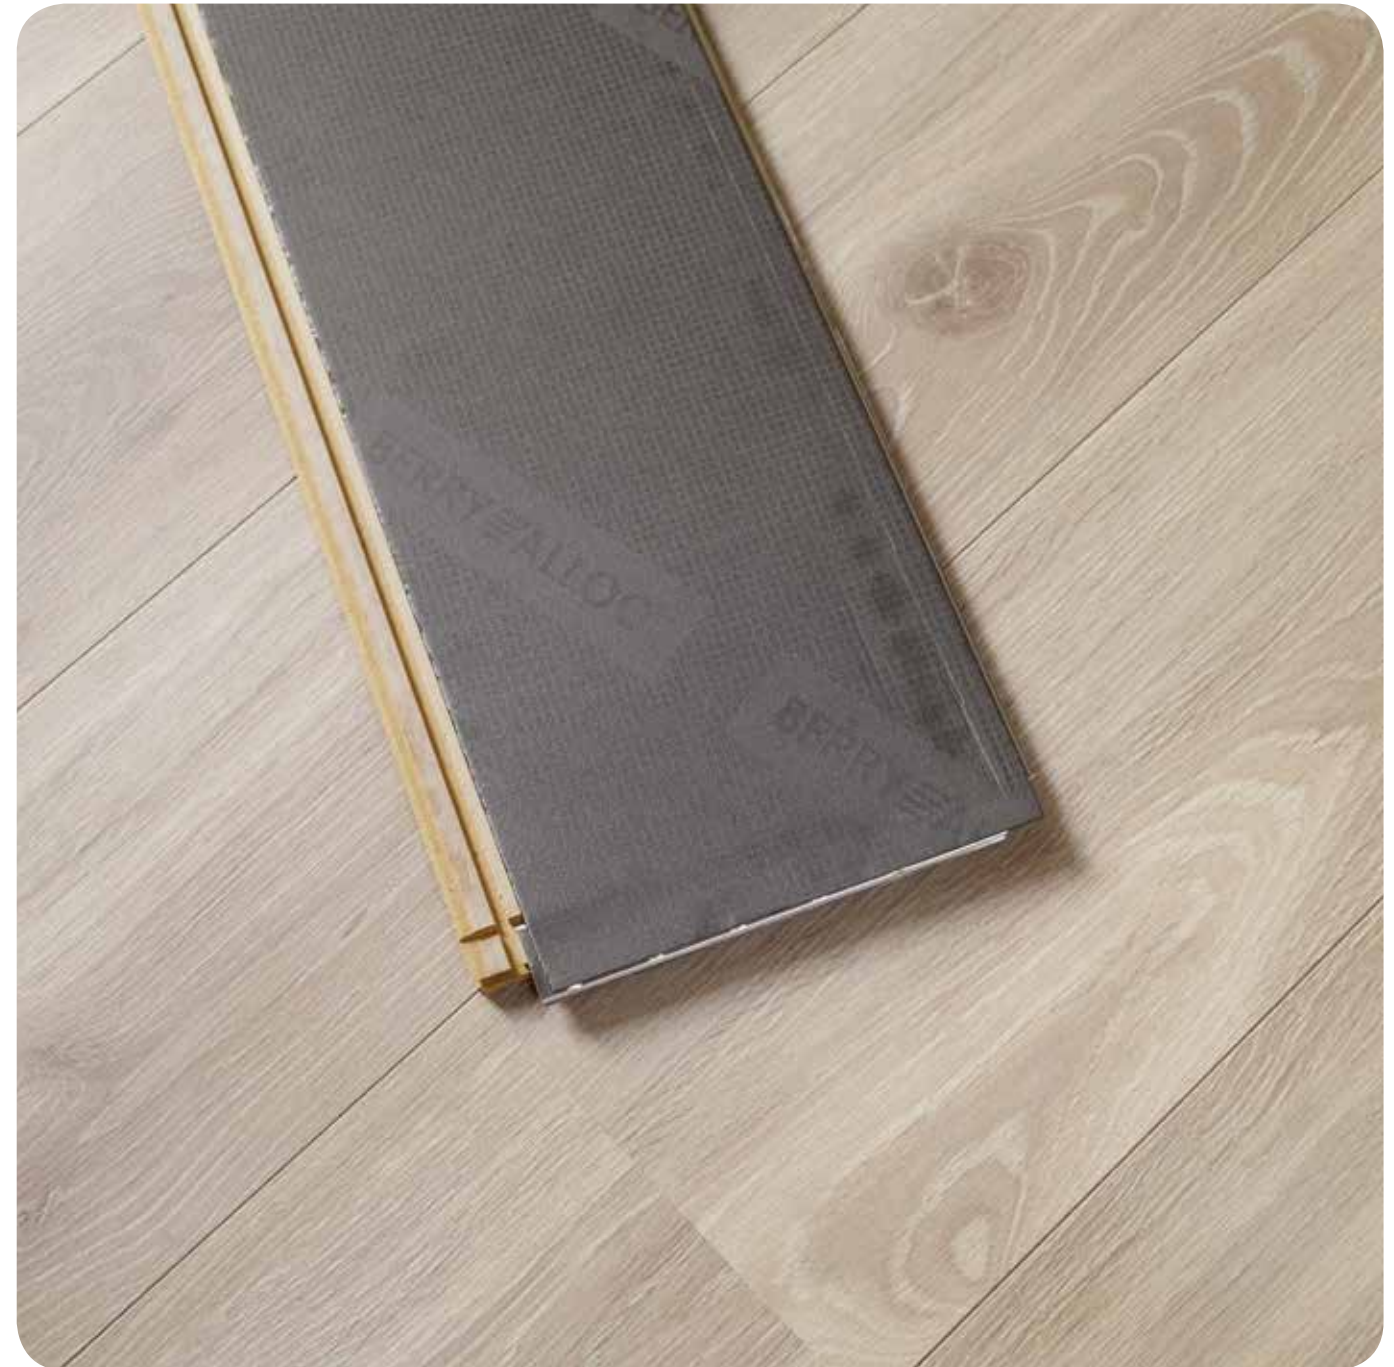

**Silent System is a sound-absorbing underlay pre-attached to the back of the floorboards.**

Each plank has a Silent System acoustic underlay. Footsteps, furniture being pulled or rolled along can hardly be heard from one room to the next. Rolling a chair along the floor in an open-plan office, or in an apartment, is scarcely audible.

### Quick installation:

Because of the pre-attached Silent System underlay, there is no need of an extra underlay.

**Impact Sound improvement:** > 19 dB

BerryAlloc

# ACCESSORIES

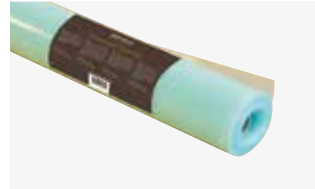

A WIDE RANGE OF ACCESSORIES, EASY TO INSTALL

## TAPPING BLOCK ORIGINAL

This is the ideal tool to use when installing BerryAlloc floors with their aluminium click system and prevents the click system from becoming distorted.  
**Ref: WD180003**

## MOISTURE BARRIER

The Moisture Barrier underlay must always be used when installing BerryAlloc floor coverings over PVC, linoleum, ceramic tiles, cement and concrete surfaces.  
Dimensions :  
2600 x 10000 x 0,2 mm  
**Ref: WD158235**

## LAMINATE CLEANER

The perfect maintenance for your laminate floor.  
  
This antibacterial laminate cleaner is suitable for both first-time maintenance and regular use.  
Rinsing is not necessary.  
**Ref: LC1000**

## STARTER KIT ORIGINAL

The spacer blocks ensure the correct distance is maintained between the walls and floor during installation and the metal pull bar simplifies the installation of the final plank on each row.  
**Ref: WD180000**

## WHITE SKIRTINGS

Leave white or paint to match the colour of the wall or another colour.

**Modern skirting**  
2400 x 14 x 100 mm

BerryAlloc

# CARE & MAINTENANCE

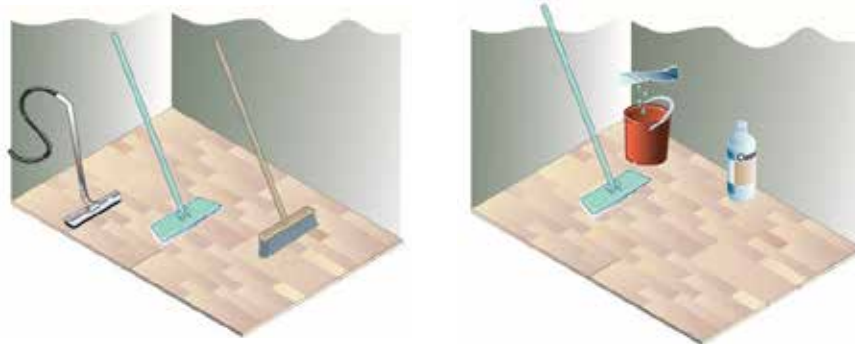

## TIPS & TRICKS

- The surface temperature must never exceed 27° C (Underfloor heating, max. effect 60W/m<sup>2</sup>)
- Indoor climate: the ideal indoor climate has a relative humidity of between 40 and 50% and a temperature of between 19 and 24°C.
- Place a suitable doormat that absorbs dirt and / or moisture
- Equip furniture and heavy objects with felt pads for safe moving
- Use clear plastic mats under office chairs with wheels

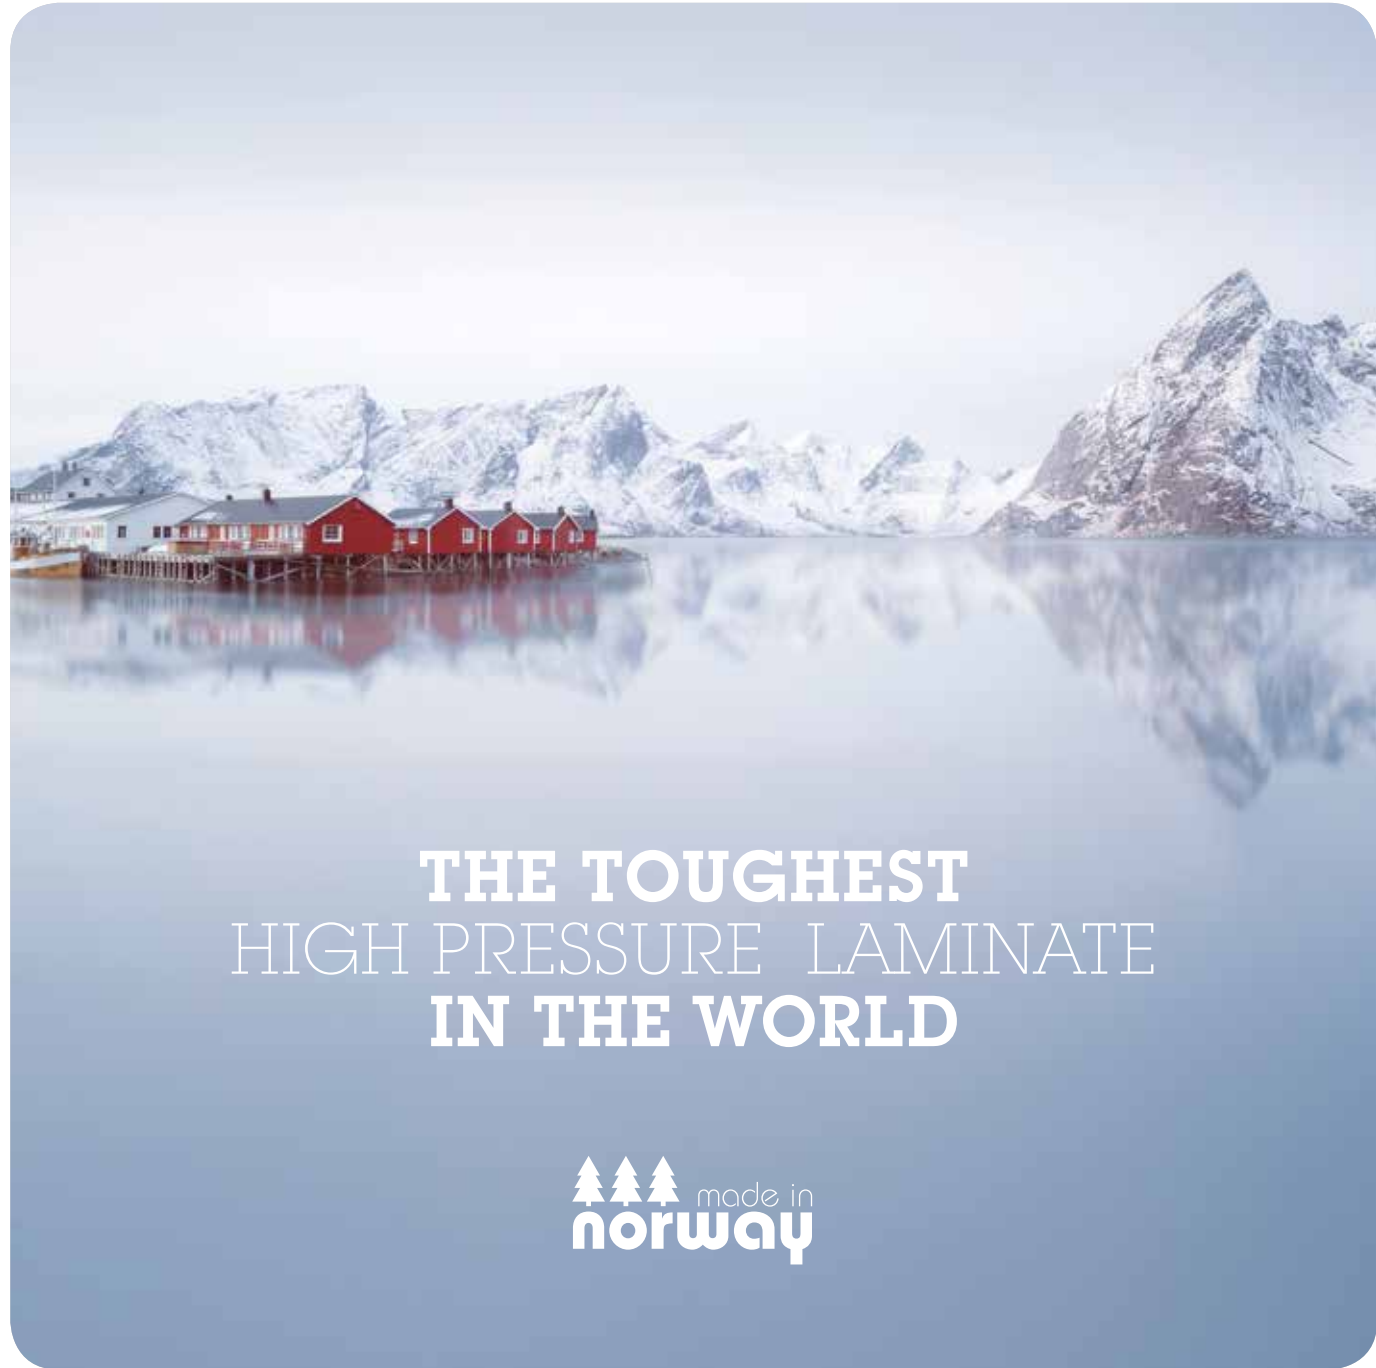

More detailed info on [www.berryalloc.com](http://www.berryalloc.com)

## CLEANING & TREATMENT

The BerryAlloc HPL floor can be maintained in very little time and with a minimum of effort to keep it in good condition and looking good for many years. Cleaning methods for all kind of stains and maintenance treatments are recommended and explained on [www.berryalloc.com](http://www.berryalloc.com)
